

JLT UNIVERSITY
CONSTRUCTION ACADEMY

5 - 6 DECEMBER 2018 | SINGAPORE

Introduction

Driven by a deep passion for knowledge sharing and continuous learning, the JLTU Construction Academy offers delegates the opportunity to gain further knowledge, skills and experience in their chosen insurance field. To date, JLT Asia has successfully delivered 5 Construction Insurance Training Seminars in Singapore, all to excellent feedback and reviews from participants.

We deliver first class training through JLT's insurance and industry specialists. Tailoring our courses to specific industry practices and concentrating on practical training over theoretical based learning, means we can concentrate on building the specific skills our delegates require to better tackle their day-to-day tasks.

JLT has many years' experience in delivering insurance and risk management training and our success is measured by the high standards we set both our specialists and delegates. We look forward to working with you and welcoming you to the JLTU Construction Academy.

JLT University

During a region-wide strategy tour in 2015, the number one strategic challenge identified by our leadership teams in every country across the region, without exception, was the availability of experienced, trained specialists. At the same time our Group refined our global ambition which is to become the world's leading specialty risk advisor and broker. JLTU was launched in Asia in 2016 to address these two challenges.

With four faculties (Technical Insurance, Sales, Management & Leadership, Personal Development) and faculty deans from within our business, we are investing to develop our own technical specialists, business leaders and sales experts. JLTU is key in transforming JLT Asia into a learning organisation that develops employees into skilled experts and future leaders over time, addressing talent shortage and staff retention.

JLTU Construction Academy - specialty training at its best!

General Details

Who should attend?

The seminar has been designed for delegates with less than five years construction risk and insurance experience or those that have recently moved to the industry sector and looking for a deeper understanding of all areas of construction insurance. They will ideally have a basic knowledge of insurance and the construction industry and working within a risk management team of a construction company or a company who has major ongoing construction investment.

By attending the course delegates will:

- Gain a deeper insight and understanding of insurance for the construction industry
- Develop practical skills that can be used immediately to benefit their current working practice
- Understand how a construction risk is under-written by Insurers

Location

The course will be held at
InterContinental Hotel, Singapore
Address: 80 Middle Road, Singapore 188966
T: +65 63387600
W: <https://singapore.intercontinental.com>

Course dates

The course will last for two days from 5 and 6 December 2018

Course fees

The course fee is USD900. Lunch will be provided each day.

Travel, accommodation and other subsistence costs will be at extra cost to the delegate.

How to apply

To register your interest to attend the JLTU Construction Academy, please contact **Mary Wong** on **+852 2864 5557** or mary_wong@jltasia.com

About JLT

Jardine Lloyd Thompson Group plc

JLT is one of the world's leading providers of insurance, reinsurance and employee benefits related advice, brokerage and associated services. We are specialists. Our deep expertise and entrepreneurial culture give us the insights, creative freedom and tenacity to go beyond the routine and deliver better results for our clients. Because at JLT, clients come first. We are quoted on the London Stock Exchange, have over 10,000 colleagues and own offices in 40 territories. Supported by the JLT International Network, we service clients in over 135 countries.

Market-leading industry knowledge and expertise in specialist fields enable us to provide solutions to some of the world's largest companies, small & medium enterprises, private individuals and public organisations. The quality of our people and the environment we have created for them to provide top-notch service to you clearly differentiate us. Our practitioners work in cohesive teams and in close coordination with specialist teams.

We play to our strengths and focus on markets and specialist areas that we excel in - where we already are, or can become, market leaders.

Jardine Lloyd Thompson (JLT) Asia, a subsidiary of JLT Group, is a market leader in insurance & reinsurance broking, risk consultancy and employee benefits services. We have more than 1,800 employees in 14 major countries and territories across Asia. Our technical abilities and knowledge span a wide range of specialist areas.

About JLT

JLT Construction

JLT currently acts as insurance advisor and broker to many of the world's largest construction companies and project owners. In addition to arranging insurance programs for some of the world's largest construction projects, we are also market leaders in delivering solutions for project finance and public private partnership transactions. We are renowned for our ability to add value to all parties involved in these complex deals.

Our Asia Construction business was established in 1988 and has grown to a team of 50 dedicated construction professionals across the region. We consider the Asian construction practice to be the most professional and successful in the region.

Our London Construction business brings together 140 people dedicated to project owners and construction contractors including specialist teams for civil engineering, power, mining, energy, project finance and property developers. This makes us by far the largest onshore construction broker in the London market; in fact we have more dedicated London construction professionals than our major competitors combined.

In 2014 we formally established the JLT Global Construction Practice which brings together the regional construction team leaders and facilitates global marketing, closer collaboration and information sharing around the world for the benefit of our clients.
